MORTAR

Quartzline

MORTAR TROWEL • FOR WET AREAS

Seamless flooring system, especially suitable for wet areas and where hygiene and safe working conditions are important requirements.

LIQUID-TIGHT FLOOR

Quartzline MORTAR TROWEL is a floor system typically applied by hand or with a power trowel, allowing for a perfect connection to drains and gullies. This guarantees a hygienic, liquid-tight floor. A finish with coved skirting provides a seamless connection to the walls, preventing dirt buildup. This seamless, hygienic flooring system is easy to maintain and can withstand heavy loads.

Colors a DESIGNS

MORTAR TROWEL is available in all colors. The composition of many different colored quartz allows for unique designs. By mixing colors, beautiful patterns can be created.

ZONE-DEMARCATIION

MORTAR TROWEL with colored quartz is ideal for demarcating production zones, such as in food production. Using primary colors, each zone has its own color and distinctiveness.

QUARTZ

Quartzline works with pure rounded quartz from a Rhine quarry in Germany. The quartz is washed and then dried and sieved in our factory in Dordrecht..

THE ADVANTAGES OF MORTAR TROWEL

- Liquid-tight, preventing dirt buildup.
- Hygienic and easy to clean and maintain.
- Suitable for both indoor and outdoor applications.
- Resistant to influences such as chemicals, oils and acids.
- Anti-slip, ensuring a safe working environment.
- Available in various colors and finishes, allowing customization to suit the desired appearance of spaces
- Wear-resistant and capable of withstanding heavy loads

HACCP

A hygiene code has been established for many industries. HACCP (Hazard Analysis and Critical Control Points) is a food safety system.

Quartzline MORTAR TROWEL meets the requirements set by HACCP and is therefore a common flooring choice in the food industry.

EASY TO MAINTAIN

With the Quartzline MORTAR TROWEL flooring system, you create an environment that withstands demanding usage situations. Properties such as colorfastness, wear resistance, and resistance to daily cleaning and chemicals support this. A MORTAR TROWEL floor leaves no room for dirt. Sweeping, vacuuming, and mopping are enough to keep the floor clean. Using a buffing machine for maintenance is no problem at all.

APPLICATIONS

Quartzline MORTAR TROWEL with its unique properties, can be applied in many usage situations. These include the automotive sector, production facilities, chemical and heavy industries, education, healthcare, agriculture, and hospitality establishments.

COLOR SELECTION

MORTAR flooring systems can be used to various applications. Below, we provide examples of colors to inspire you.

Because the base material is of natural origin, color variations are possible.

DISCLAIMER

Deze this brochure has been carefully compiled. However, color variations may occur between the photos published in this brochure and the actual installed floor
