

QUARTZLINE MARBLE INDOOR

Version 1.0 – October 2026

MARBLE Indoor is an epoxy-bound floor system made of real marble, in grain sizes 1-4 mm and 4-8 mm. The rounded grains make it pleasant to apply and give a fine appearance. Binder TP E30 contains only 30 parts hardener to 100 parts resin, which gives high transparency and less risk of yellowing.
